

Attorney Docket  
No. 36943XE

REMARKS

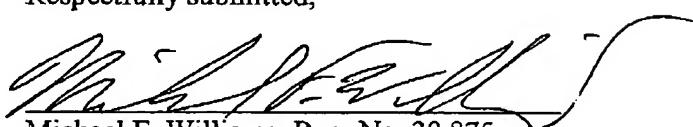

It is believed that this Preliminary Amendment is being filed prior to the mailing of the first Office Action. The amendments presented above cancel the twenty originally filed claims, add thirty-seven new claims and update the abstract section of the specification. A copy of the new Abstract, on a separate unnumbered sheet, accompanies this document. Further, since the cross reference information for this application was included in the prior filed Application Data Sheet, the cross reference section in the specification has been deleted. The amendments to the specification also act to retain all of the incorporation by reference citations presented in the original cross reference section.

The new claims include three independent claims. The new claims find support, for example, in incorporated parent Application No. 06/897,547 (see Figures 5A, 5B and 6 and the related description for example). An Information Disclosure Statement related to the claims will be filed via first class mail.

A Fee Transmittal form in payment of fees also accompanies this document. If it is determined that additional fees have been generated by this filing, or if there has been an overpayment, the Commissioner is hereby authorized to charge or credit Deposit Account No. 14-1190 as appropriate. Applicants hereby request entry and examination of the preliminary amendments and claims contained herein.

Respectfully submitted,

November 11, 2002
